

SDS Inventory Manager in use

What happens if I need more SDSs included in our subscription plan?

Each of our subscription plans allows you to store a specific number of SDSs in your library.

See our [Pricing plan](#) and decide which is most suitable for your organization. Then, go to the "Subscription" page to order your desired plan.

The screenshot displays the 'Billing Page' for SDS Manager. At the top, it states: 'SDS Manager has subscription plans to meet a variety of budgets and needs. You can start with our free-plan to test our solution to see if it fits your needs.' Below this, a section titled 'Select how many Safety Data Sheets you need in your library' features a range of options from 100 to 4,000+. Two billing frequency options are available: 'Billed Monthly' and 'Billed Annually'. Three subscription plans are presented: 'Basic' at US\$19/mo, 'Premium' at US\$39/mo, and 'Pro' at US\$59/mo. Each plan includes a list of features and a 'PURCHASE' button. A 'Your Current Plan' section shows the 'Premium' plan with a trial period until 2024-10-27. On the right, a user menu is visible with the 'Subscription' option highlighted in red.

Please also note that we offer free trial periods for our subscription plans.

In "Subscription" page, click on the pencil icon, and change to your desired subscription for the trial period.

The screenshot shows the 'Your Current Plan' section. It features a large card with the 'Pro' plan name and a pencil icon, indicating it is the active plan. Below the name, it states 'Trial period until 2024-10-01'.
