# SDS Inventory Manager in use

## How can I get a listing for things like 'Auto-ignition temperature' of all chemicals?

We can help you extract all the information from the SDSs and categorize them.

To get a custom view for specific information like "Auto-ignition temperature", go to the "All my SDSs" page and choose the "Personalized view" tab.

Select "+" and search for your desired information:

# SDS Inventory Manager in use

## Select more columns                          ✕

Auto-ignition temperature                    🔍

⊕ Create custom fields

☑ Auto-ignition temperature
