

# Daily use

## How to administer notifications from SDS Manager.

On your [SDS Manager account](#), you can activate the following email notifications

- New SDS Request
- Message from SDS Manager
- Message from vendor
- New revision of an SDS
- SDS has automatically been upgraded to new version

The screenshot shows the SDS Manager interface. On the left is a navigation sidebar with icons for Home, SDS, Location, Keys (99+), Search, Alerts (10), QR, Refresh, Security, Reports, and Analytics. The main content area has three sections: 'General Information', 'Security', and 'Email notifications'. The 'Email notifications' section is highlighted with a red border and contains the following settings:

Notification Type	Status
New SDS Request	On
Message from SDS Manager	On
Message from vendor	On
New revision of an SDS	On
SDS has automatically been upgraded to new version	On

A 'Save settings' button is located at the bottom of the 'Email notifications' panel. On the right, the user profile menu is highlighted with a red border, showing the user 'Erlend Bruvik' from 'Test Corporation Inc.' with a 'Pro' badge. The menu items are: Manage account, Organization profile, User management, Subscription, Go live checklist, Impersonate, English, Invite members, Import product lists, Settings, and Logout.
