SDS Requests: Allow your employees to request the addition of SDSs to your SDS library.

To allow your employees to request SDS to be added to your SDS library, you must first enable the setting "[Employee SDS search: Show search result from global database if SDS is not found in Company SDS library](#)" on the [setting page](#)

When enabled, your employees will find any Safety Data Sheet, also for products that you have not yet added to your SDS library.

When your employees scan a QR code poster or click a link on your intranet to search for a product (e.g., WD-40 Fast), they will still be able to find the SDS even if it hasn't been added to your SDS Library yet and they can request the SDS to be added to your SDS Library.

I need this SDS! 😞

I have checked safety issues and approve the product to be used as long as employee use mandated PPE during use teehee 😊
