How can i know who added or updated an SDS in our SDS library?

On the [All Our SDS](#) page you can now filter your SDS by user that updated them.

The screenshot displays the SDS Manager interface. On the left is a navigation menu with items like 'Dashboard', 'All my SDSs', 'My locations', 'Manage SDS Library', 'Global SDS Search', 'SDS compliance', 'SDS where newer version exists', 'Hazardous substances', and 'Manage QR codes'. The 'All Our SDS' option under 'SDS compliance' is highlighted with a red box. The main content area is titled 'All Our SDS' and features a search bar, an 'Export to XLSX' button, and several filter dropdowns: 'Search for SDS', 'Filter by CAS# in c...', 'All Locations', 'SDS status' (set to 'Only list SDS in use'), 'Approval Status' (set to 'All'), 'Supplier', 'Revision date', 'Risk assessment' (set to 'All'), 'Hazard statements', 'GHS pictograms', 'Custom Fields' (with a plus icon), 'Presence of Product', 'Language' (set to 'All'), 'Updated By' (highlighted with a red box), 'External System Id Presence' (set to 'All'), and 'Amount stored'. A 'Bulk Action' dropdown is also visible on the right.
