

How to keep our SDS library up-to-date

How can I check if any of our chemicals are on any restricted chemical list?

SDS Manager has an overview of all chemicals listed on restriction lists like ZDHC, California Proposition 65, REACH and more.

The substances in these lists are identified with either EC or CAS number.

SDS Manager will extract the CAS and EC numbers from section 3 of the SDS you use and check if these numbers are found in any of the restriction list.

In SDS Manager, you will be able to list all the SDSs you have in your SDS Library that have restricted components.

Click here to [open SDS Manager see what SDS in your library that are containing hazardous chemicals \(require login\)](#).

Below is an example of how we list products with components on restricted list:

Hazardous substances										
SDS with components listed on restricted substance lists										
Search for SDS				Regulation	SDS status	Approval Status	Locations	Risk assessment		
					Only list SDS in use	All	Only list SDS on locations I have access to	All		
Product Name	Supplier Name	Revision date	GHS	Locations	Approval Status	EC/CAS	Name of the chemical	Concentration	Listed in
