

Add SDS to our library

How can I edit the product name on an SDS?

In SDS Manager, you can edit the product name and any other information extracted from the Safety Data Sheet file.

To edit information, simply enter the SDS detail mode and hover on the text you want to change. See below picture on how this is done.

The screenshot displays the 'Warning' modal in SDS Manager for the product '1,2-Dichlorobenzene' by AccuStandard, Inc. The modal includes a 'Warning' header, hazard icons, and risk ratings. A red arrow points to a pencil icon next to the product name, with the text 'Click on the pencil to edit Product name'. Another red arrow points to a detail icon in the background interface, with the text 'Click here to open SDS detail'. The modal content is as follows:

General Information	
Product name:	1,2-Dichlorobenzene
Product Synonyms:	
Chemical Formula:	C6H4Cl2
CAS N°:	95-50-1
Date of Issue:	2021-06-24
Icons in PDF:	
Customized:	
.txt:	
No.:	

Company Information	
supplier name:	AccuStandard, Inc

You can also add a new name to a product as Synonym. The benefit of using Synonyms is that an SDS then can be found both using the original product name in the SDS and the synonym you add.
