

# SDS Inventory Manager in use

## How can I track chemical use and disposal and report to EPA

The most efficient method for employees to record usage is to scan QR codes on secondary container labels.

The labels have QR code that allow user to scan and record arrival of new material, usage or disposal.

Show chemical tracking QR code on labels. Allow recording chemical usage using QR code ☒

SDS Manager allows tracking of chemical new purchase, usage (1) and disposal (2). Users can also move chemical amounts to another location, typically used when a large container is split into multiple containers for distribution to other locations.

Reports can be made for regulatory reporting based on the recorded information.

On [Report for substance us and disposal](#) (require login) you can generate reports for selected periods for use and disposal of chemicals.

A vertical list of 18 icons representing various system components and functions. From top to bottom, the icons are: a house (Home), a document with 'SDS' (Safety Data Sheet), a location pin, a wrench and screwdriver (Tools), a magnifying glass (Search), a clipboard with a checklist (Checklist), a QR code, a circular arrow (Refresh/Reset), a bell (Notifications), a network diagram (Network), a server rack (Servers), a sun with rays (Weather/Climate), a sun with a cloud (Weather/Climate), and a line graph (Analytics/Reporting).
