

# SDS Inventory Manager in use

## How can our employees find the SDS for a chemical?

If the SDS is already added to your organization's SDS library, your employees can easily and quickly find the SDS in the search bar from the 'Dashboard.'

The screenshot shows the SDS Manager Dashboard. On the left is a sidebar with navigation options: Dashboard, All my SDSs, My locations, Manage SDS Library, Global SDS Search, SDS compliance, Substitutions, Risk assessment, Job procedures, My job procedures, Exposures, and Reports. The main content area is titled 'Dashboard' and features a 'Welcome to SDS Manager!' section with buttons for 'Add SDSs to your library', 'Create location structure', 'Import your existing SDS files', 'Print poster for QR login', 'Invite colleagues', 'Open help center', and 'Schedule a demo'. A QR code is also present with the text 'Check what your employees will see'. Below this is a search bar labeled 'Find Safety Data Sheets for your products' with the placeholder text 'Product, Supplier, CAS#, UFI#, EU No.'. At the bottom, there are two summary cards: 'SDS I have access to' showing 195 with a 'Show my SDSs' link, and 'Locations I have access to' showing 12/12 with a 'Show my locations' link and a 100% progress indicator.

Or you can also find the search bar in 'All my SDSs' page:

The screenshot shows the 'All my SDSs' page. The sidebar on the left includes 'Dashboard', 'All my SDSs' (selected), 'My locations', 'Manage SDS Library', and 'Add location'. The main content area is titled 'SDS Library for Company X' and features a search bar with the placeholder 'Filter by Product name, Supplier, CAS# or UFI#'. Below the search bar is a table with columns: Product Name, Signal word, Amount, Pictograms & Controls, Substance hazard, and Actions. The table lists two entries: one for '<=0.1% HCL/Air' with a 'Warning' signal word and another for '= 0.1 mol/l (0.1 N) Titrisol' with a 'Danger' signal word. Each entry includes pictograms, hazard codes (H3, S4, E1 for the first; H3, S5, E5 for the second), and action icons.

Alternatively, employees can scan QR codes on secondary container labels.

Emergency agency name: CHEMTREC

Emergency agency phone number: 1-800-424-9300

The labels have QR code for easy access to the SDS file (1) and to record arrival of new material, usage or disposal (2).

We recommend that you post QR codes to access your SDS library. This ensures that employees always have easy access to SDS and avoid problems with users that do not remember their password, etc.

Please scan the below QR code with your mobile phone to see what your employees will see when they access SDS library via QR code.

# SDS Inventory Manager in use

Typically, our customers post QR code on the wall where employees use chemicals to ensure that employees know how to access the SDSs.

With SDS Manager, you can also have a link on your intranet to directly open the SDS library for easy access.
