

# SDS Inventory Manager in use

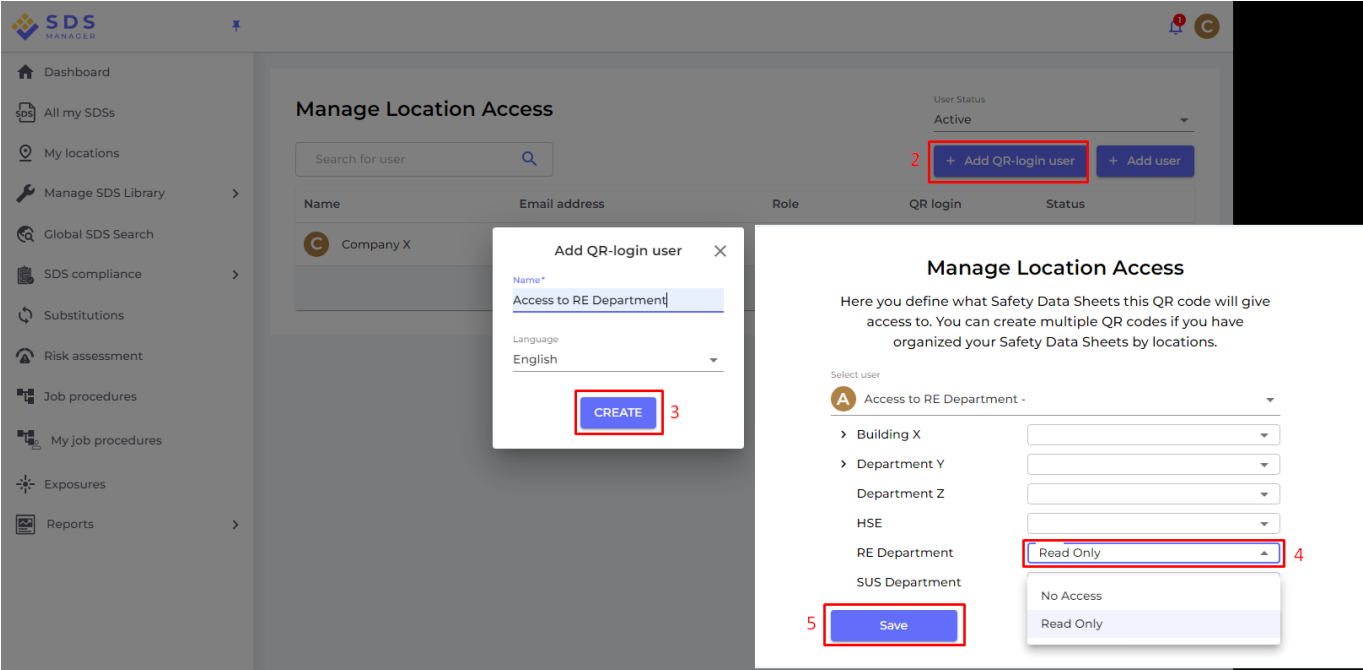

## How can I create a link on our intranet to access our SDS library?

You can simply create a QR code user, scan the QR code, copy the link and add it to your intranet.

To create a QR-code-login, (1) open 'User management', (2) click on 'Add QR login user' and name the user, then (3) click 'Create'. We recommend you name the account to describe the locations which the QR code have access to. Next, (4) select the locations that you want the QR code to give access to, then (5) click 'Save'. Employees who log in via the QR code login will now have read-only access to the SDSs on selected locations.

# SDS Inventory Manager in use

When the QR code user is created, you can view the QR code by clicking on the QR icon (1) and print the QR code poster (2).

Name	Email address	Role	QR login	Status
 Access to RE Department -		Staff	 1	<span>Active</span>

Rows per page 10 1-1 of 1

You can scan the below QR code with your mobile phone to see how this will look for your employees.

# SDS Inventory Manager in use

## Login QR Code

Please choose a print layout

 Print QR code for login

2

You can use the URL of the QR code to add a link to the SDS library on your Intranet

 Copy URL to clipboard

Email access link to your team

Disable QR code login

The QR code is essentially a URL link that gives access to your SDS library.

To easily link your intranet to your SDS Library, simply click the 'Copy URL to clipboard' button. This will copy the necessary URL, which you can then use to create the link on your intranet.
