

# **SDS Inventory Manager in use**

## **See SDS Manager in daily use**

### **Access the SDS library**

With SDS Manager, you can get easy access to your SDS library and all safety information by simply scanning a QR code poster.

Many of our customers also use tablets where SDS Manager is installed. We can help installing Kiosk software on the tables to only allow the tablet to be used for access to Safety Data Sheets, and automatically open your SDS library when powered on.

### **SDS Manager is specialized to be used on mobile phones**

Since we extract all information from the PDF files in a structured format, information is available in a readable format that also works well on mobile phones.

For cases where no SDS is found in your SDS library with the search keywords, users can redo search by using our global database of 13Million+ safety data sheets.

# SDS Inventory Manager in use

The screenshot shows the SDS Manager Dashboard. On the left is a vertical sidebar with icons for Home, SDS, Location, Tools, Search, Reports, Refresh, Alerts, Hierarchy, Users, and Settings. The main content area has a header 'Dashboard' and a welcome message 'Hey Company, Welcome to SDS Manager!'. Below this is a light blue box with a lightbulb icon and the text 'Welcome to SDS Manager!'. It contains a link to 'See our getting started guide' and four buttons: 'Add SDSs to your library', 'Print poster for QR login', 'Invite colleagues', and 'Open help center'. At the bottom of this box is a link 'See SDS Manager in daily use - from your employees perspective'. Below the blue box is a section 'Find Safety Data Sheets for your products' with a search bar containing 'citric acid'. A red rectangle highlights a link 'Redo search using global database >' below the search bar.

## Access to Hazard information

On the Hazard tab, only H and P codes are showing in the SDS list. Click on the SDS in the list to see a panel with details of the codes.

1,2-Dichlorobenzene

AccuStandard, Inc

Hazardous Area

100 (kg)

Warning

All SDSs are given an rudimentary ratings for Health hazard, Safety hazard and Environmental hazard based on a scale from 1 to 5. The rating is done based on H and P codes found in the SDS file. These ratings will give some idea about the hazard levels associated with a product.

1,2-Dichlorobenzene

AccuStandard, Inc

Hazardous Area

100 (kg)

Warning

With our module for SDS risk assessment, you can create hazard ratings for your organization's use and storage situations.

## Secondary container labels

For particular hazardous substances or when secondary containers are used, SDS Manager allows

# SDS Inventory Manager in use

you to create labels in 15 different sizes.

These labels have QR codes that allow users to direct access to the SDS of the product. H and P codes are shown on the labels, as well as PPE icons found in the SDS.

## 1,2-Dichlorobenzene

Company name: AccuStandard, Inc  
Signal Word: Warning

**Hazard statements**

H227: Combustible liquid ; H302: Harmful if swallowed ; H315: Causes skin irritation ; H319: Causes serious eye irritation ; H371: May cause damage to organs (or state all organs affected, if known)(state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard) ;

**Precautionary statements**

P202: Do not handle until all safety precautions have been read and understood. ; P233: Keep container tightly closed. ; P262: Do not get in eyes, on skin, or on clothing. ; P264: Wash ... thoroughly after handling. ; P280: Wear protective gloves/protective clothing/eye protection/face protection/hearing protection/... ; P284: [In case of inadequate ventilation] wear respiratory protection. ; P331: Do NOT induce vomiting. ; P338: Remove contact lenses, if present and easy to do. Continue rinsing. ; P360: Rinse immediately contaminated clothing and skin with plenty of water before removing clothes. ; P404: Store in a closed container. ;

## Access to detailed information from the Safety Data Sheets

For users that need access to more detailed information from the Safety Data Sheets, they can configure what data from the SDS to be shown.

Below is an example where a user has configured the system to show the Boiling point on all products.

# SDS Inventory Manager in use

# SDS Inventory Manager in use

Users have access to the original Safety Data Sheet file by clicking on the "PDF" icon. As shown below, the PDF version is much less readable on a mobile phone than the extracted view of the data that SDS Manager present to the users.

## SDS Risk assessment and Job procedures

If you are using SDS Manager to create risk assessment and Job hazard analysis, employees can get easy access to required PPEs and QR codes to read detailed instructions.

When users are assigned to a job procedure, you can require them to register a read-receipt (Confirm read). The read-receipt will be the documentation that the users have read the procedures and are informed about PPE and controls.

The screenshot shows the SDS Manager interface. On the left is a sidebar with navigation options: Dashboard, All my SDSs, My locations, Manage SDS Library, Global SDS Search, SDS compliance, Substitutions, Risk assessment, Job procedures, My job procedures (highlighted with a red box), and Exposures. The main area displays a table of job procedures:

Job procedure	Locations	Risk rating			Risk rating after controls			Read date
		H	S	E	H	S	E	
Job2	• Storage	-	S3	-	-	S1	-	<a href="#">Confirm read</a>
Job1	• Test1	H3	S2	-	H2	S1	-	2023-04-26

Below are examples of a dummy **Chemical instruction & risk assessment** and a dummy **Job procedure** (COSHH compliant Job hazard analysis)

Click on the below pictures to see the full reports.

## Seeing is believing!

Please click on the below picture or scan the below QR code with your cell phone and see what your employees will see when they access your next SDS library.

# SDS Inventory Manager in use

## **Do we have a SDS Manager APP for iOS and Android that employees can install to access the SDS library?**

Some of our customers are asking if we have an APP their employees can use.

We strongly discourage our customers to rely on installed APPs, which require passwords for login to give access to safety information, as it is unrealistic to expect all employees to have an updated SDS APP always installed on their phones. You do not want your employees to be installing APPs and look for passwords when an accident has occurred.

## **Offline access to SDS library**

If you require offline access to your SDS library, SDS manager allows you to create SDS binders. This is a PDF file that contains all the SDSs you have in your SDS library for a location.

Click on the below image to see example of an SDS binder.
