

# Daily use

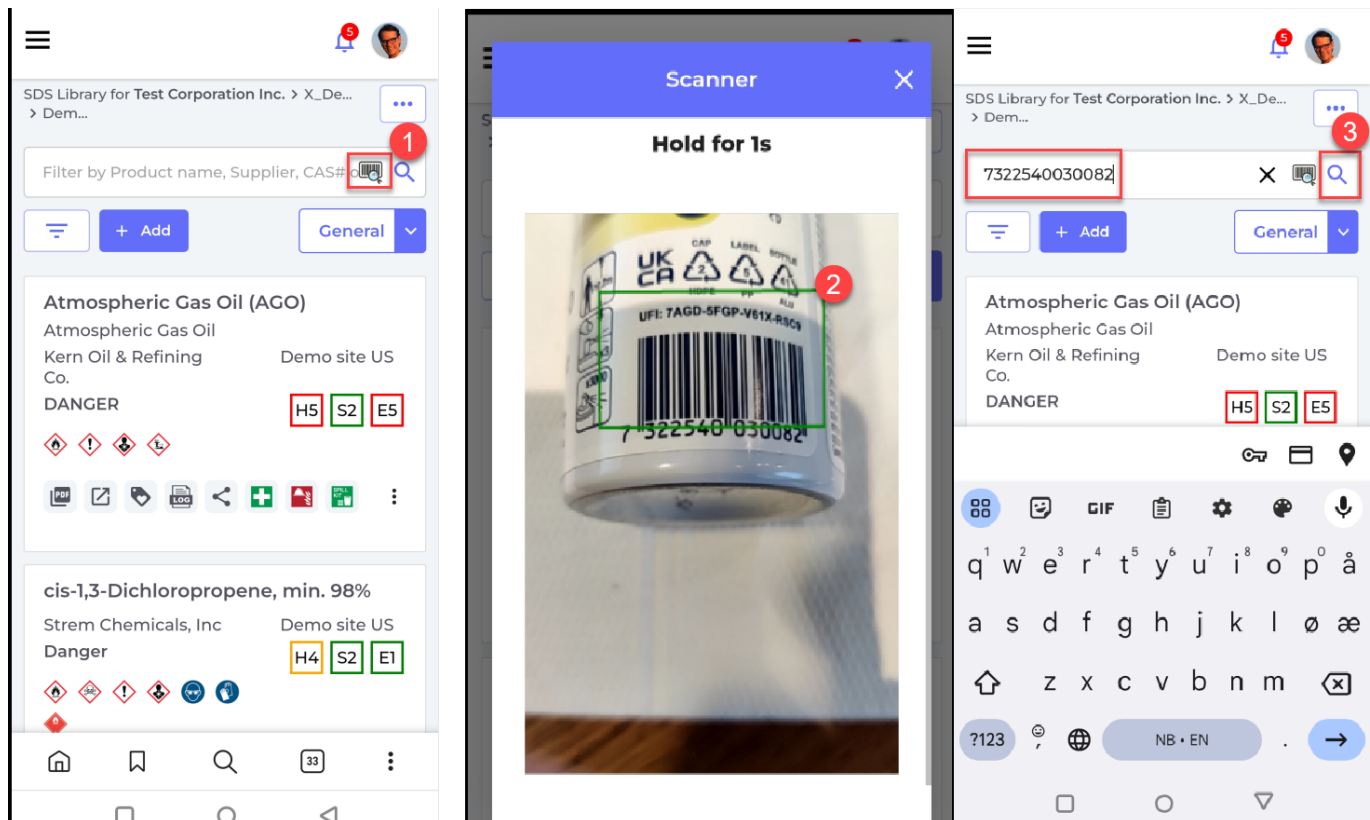

## How to lookup an SDS by scanning Barcode (EAN-/UPC-code)

To find Safety Data Sheet for a product you first scan the QR code to your SDS library

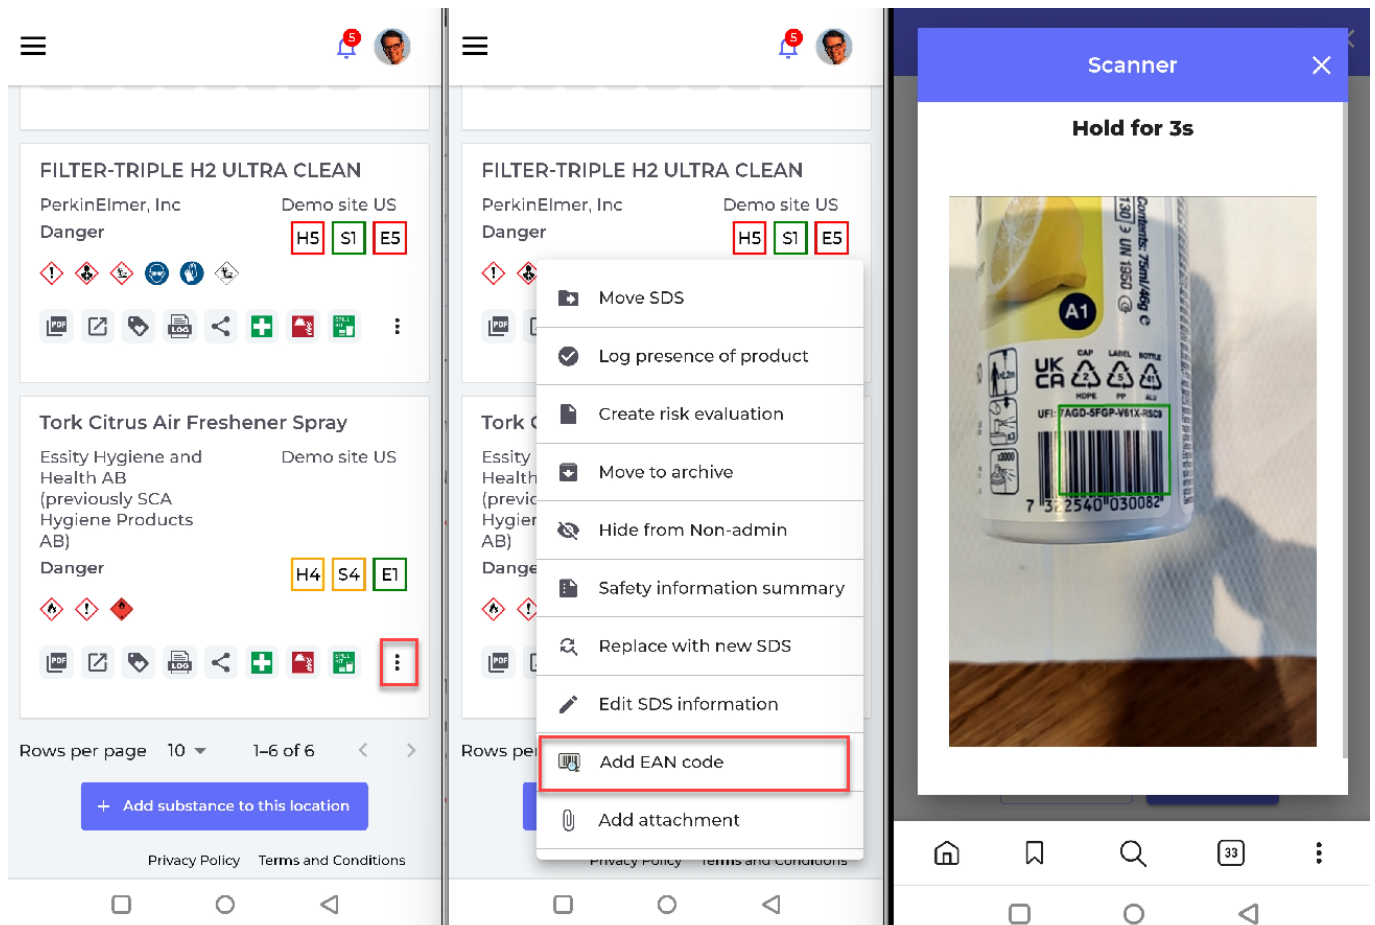

next you click the barcode icon in the search bar (1), scan the barcode (2) and click the search icon (3) after the barcode has been detected.

# Daily use

Very few Safety Data Sheets have EAN/UPC code, so to be able to let your employees find SDS by scanning barcodes, you must first add the barcodes for your products.

Admin access is needed to add EAN/UPC codes. you can add multiple codes to same SDS

# Daily use

On [Manage SDS library](#) (require login) you can use the filter to find SDS that is missing EAN/UPC code

The screenshot displays the 'SDS Library for Test Corporation Inc.' interface. At the top, there's a search bar with a filter icon highlighted by a red box. Below the search bar, a table lists SDS entries with columns: Product Name, Supplier Name, Signal word, Pictograms & Controls, Substance hazard (H, S, E), and Actions. The table includes entries like 'Atmospheric Gas Oil (AGO)', 'cis-1,3-Dichloropropene, min. 98%', 'Cleaning Solution, GP (Undiluted)', 'Diesel/Motor Oil Standard (TX1 mL)', and 'FILTER-TRIPLE H2 ULTRA CLEAN'. An 'Add Filter' dialog box is open in the center, with the option 'Only show SDS without EAN/UPC code' highlighted by a red box. The dialog also includes options for 'Show archived SDS' and 'Only show SDS with new revisions', as well as dropdowns for 'All Suppliers' and 'All Revision Dates'. 'RESET' and 'APPLY' buttons are at the bottom of the dialog.
